Basic (A2)

PROFESSIONAL BACKGROUNDS

• Product Owner, Tboursecollege (2020-2023)

At Tboursecollege, a firm specializing in financial market investment training and the creation of high-ROI financial market portfolios, I led the development of sophisticated scripts for stock market investments, focusing on technical analysis to maximize ROI.

• Product Manager, Tboursecollege (2018-2020)

Oversaw all aspects of 'Golden Circle,' a stock market application based on Fundamental Analysis. Led product strategy, development, and marketing efforts, including the implementation of a freemium pricing model to maximize user engagement and revenue. The app, available in Iranian markets, aims to help users construct optimal stock portfolios for the highest possible returns.

• Project Manager, Tboursecollege (2017-2018)

Employed both Agile and traditional project management methods to oversee diverse projects, including educational programs, conferences, seminars, and the establishment of new branches, ensuring comprehensive project success across various domains.

PATENT AND INOVATION

Project Management for Registered Patent Achievements (2023)

- Led the project to secure a patent in the area of drowning detection technology for swimming pools.
- Directed the development that achieved a patent in 3D laser sensing technology for non-contact detection in storage facilities.
- Managed the project resulting in a patent for a bioreactor technology focusing on extracellular matrix production.
